WITH FORTHCOMING PUBLIC WORK BID
[Pre-qualification procedure begun at the same time as RFP]**

Santee School District is interested in contracting with a firm to construct, install, and commission electric vehicle supply equipment (EVSE) infrastructure to supply electricity to the District's battery electric school bus and white fleet vehicles. The Electric Vehicle Supply Equipment Infrastructure Project will consist of twenty (20) fully functional, 30kW level 3, DC chargers installed at the District's Transportation Yard at 9880 Riverwalk Dr, Santee, CA 92071. The District will separately procure the 20 charging stations directly and provide the chargers to the selected firm for installation. Construction is expected to occur in Summer 2024.

The District has been approved for funding through the Carl Moyer Program and plans to participate in the San Diego Gas & Electric's (SDG&E) Power Your Drive for Fleets Program. SDG&E will design and install a new electrical service at the site. The selected firm will be required to comply with all the terms of the SDG&E Power Your Drive program and the Carl Moyer Program.

Notice is hereby given that Santee School District has determined that all bidders on the Electric Vehicle Supply Equipment Infrastructure Project (Project) to be undertaken by the Santee School District must be pre-qualified prior to submitting a bid on the Project. It is mandatory that all Contractors who intend to submit a bid, fully complete the pre-qualification questionnaire, provide all materials requested herein, and be approved by Santee School District to be on the final qualified Bidders list for the Project. No bid on the Project will be accepted from a Contractor that has failed to comply with these requirements. If two or more business entities submit a bid as part of a Joint Venture, or expect to submit a bid as part of a Joint Venture, each entity within the Joint Venture must be separately qualified to bid. The last date to submit a fully completed questionnaire is **December 22, 2023**. Contractors are encouraged to submit pre-qualification packages as soon as possible, so that they may be notified of omissions of information to be remedied or of their pre-qualification status well in advance of the bid advertisement for the Project. Notice of qualification can be expected by January 12, 2024.

Answers to questions contained in the attached questionnaire, information about current bonding capacity, notarized statement from surety, and the most recent reviewed or audited financial statements, with accompanying notes and supplemental information, are required. Santee School District will use these documents as the basis of rating Contractors in respect to the size and scope of contracts upon which each Contractor is qualified to bid the Project. Santee School District reserves the right to check other sources available. Santee School District's decision will be based on objective evaluation criteria.

Santee School District reserves the right to adjust, increase, limit, suspend or rescind the pre-qualification rating based on subsequently learned information. Contractors whose rating changes sufficient to disqualify them will be notified, and given an opportunity for a hearing consistent with the hearing procedures described below for appealing a pre-qualification rating.

While it is the intent of the pre-qualification questionnaire and documents required therewith to assist Santee School District in determining bidder responsibility prior to bid and to aid Santee School

District in selecting the lowest responsible bidder, neither the fact of pre-qualification, nor any pre-qualification rating, will preclude Santee School District from a post-bid consideration and determination of whether a bidder has the quality, fitness, capacity and experience to satisfactorily perform the proposed work, and has demonstrated the requisite trustworthiness.

The pre-qualification packages should be submitted under seal and marked “CONFIDENTIAL” to Dr. Marcia Hamilton, Assistant Superintendent Business Services, Santee School District, 9625 Cuyamaca Street, Santee, CA 92071.

The pre-qualification packages (questionnaire answers and financial statements) submitted by Contractors are not public records and are not open to public inspection. All information provided will be kept confidential to the extent permitted by law. However, the contents may be disclosed to third parties for purpose of verification, or investigation of substantial allegations, or in the appeal hearing. State law requires that the names of contractors applying for pre-qualification status shall be public records subject to disclosure, and the first page of the questionnaire will be used for that purpose.

Each questionnaire must be signed under penalty of perjury in the manner designated at the end of the form, by an individual who has the legal authority to bind the Contractor on whose behalf that person is signing. If any information provided by a Contractor becomes inaccurate, the Contractor must immediately notify Santee School District and provide updated accurate information in writing, under penalty of perjury.

Santee School District reserves the right to waive minor irregularities and omissions in the information contained in the pre-qualification application submitted, to make all final determinations, and to determine at any time that the pre-qualification procedures will not be applied to a specific future public works project.

Contractors may submit pre-qualification packages during regular working hours on any day that the offices of Santee School District are open. Contractors who submit a complete pre-qualification package will be notified of their qualification status no later than ten business days after submission of the information.

Santee School District may refuse to grant pre-qualification where the requested information and materials are not provided, or not provided by **December 22, 2023**. There is no appeal from a refusal for an incomplete or late application, but re-application for a later project is permitted. The closing time for bids will not be changed in order to accommodate supplementation of incomplete submissions, or late submissions.

Where a timely and completed application results in a rating below that necessary to pre-qualify, an appeal can be made. An appeal is begun by the Contractor delivering notice to Santee School District of its appeal of the decision with respect to its pre-qualification rating, no later than ten business days prior to the closing time for the receipt of bids for this public works project. Without a timely appeal, the Contractor waives any and all rights to challenge the decision of Santee School District, whether by administrative process, judicial process or any other legal process or proceeding.

If the Contractor gives the required notice of appeal and requests a hearing, the shall be conducted so that it is concluded no later than five business days after Santee School District's receipt of the notice of appeal, and no later than five business days prior to the last date for the receipt of bids on the project. The hearing shall be an informal process conducted by a panel to whom the governing body of Santee School District has delegated responsibility to hear such appeals (the "Appeals Panel"). At or prior to the hearing, the Contractor will be advised of the basis for Santee School District's pre-qualification determination. The Contractor will be given the opportunity to present information and present reasons in opposition to the rating. Within one day after the conclusion of the hearing, the Appeals Panel will render its decision. It is the intention of Santee School District that the date for the submission and opening of bids will not be delayed or postponed to allow for completion of an appeal process.

Note: A contractor may be found not pre-qualified for bidding on a specific public works contract to be let by Santee School District, or on all contracts to be let by Santee School District until the contractor meets Santee School District's requirements. In addition, a contractor may be found not pre-qualified for either:

- (1) Omission of requested information or
- (2) Falsification of information

SOURCES FOR VERIFICATION OF INFORMATION GIVEN BY CONTRACTORS

A CAUTIONARY NOTE: *The information that will be given to public agencies by contractors seeking pre-qualification is provided under oath, with the understanding that the intentional providing of false information is, in itself, grounds for disqualification. We expect that the information given should be and will be accepted at face value. The following information is provided for use in the few instances in which a public agency reviewing the answers given in a questionnaire has specific reason to believe that one or more answers should be verified by reference to publicly available information.*

Information about a contractor's license(s) (Questionnaire Part I, question 6, and Part II, questions 6 and 9-13)

Names and addresses of licensed contractors, information about the type of license(s) issued and the dates when licenses were issued (and certain other information), are available from the Contractors' State Licensing Board (CSLB).

Information about workers' compensation insurance (Part I, question 3 and Part II, questions 32-33)

Every workers' compensation insurance carrier issues to each of its insured businesses a Certificate of Insurance. The contractor should be willing to provide a copy upon request.

Each contractor's Experience Modification Rate for the year should be stated in a letter to the contractor from the contractor's workers' compensation insurance carrier.

Some large companies are legally self-insured for workers' compensation, with the consent and authorization of the Department of Industrial Relations. The names of companies that are legally self-insured are available from the Department's Office of Self-Insurance Plans, Workers' Compensation.

The names of each business's current and recent workers' compensation insurance carriers are available from the Workers' Compensation Insurance Reporting Bureau (WCIRB).. It will provide the names of the current and recent workers' compensation insurance carriers of every employer in California, in response to a written request, for a fee of \$8 for every year for which you seek information.

**Information about whether surety insurance carriers
are “admitted” to do business in California
(Part I, question 5)**

The California Department of Insurance will verify whether an insurance carrier is “admitted” to issue insurance policies within the State.

**Information on disqualification from bidding on public contracts
(Part I, question 8 and Part II, question 15)**

Information on the identities of contractors that have been disqualified from bidding on public works contracts is available from the California Labor Commissioner, Division of Labor Standards Enforcement.

**Information available from the Secretary of State about corporations
(Part II, questions 1a-1d, 2-4)**

The California Secretary of State has certain current and historical information about all corporations that operate in California: dates of incorporation, articles of incorporation, the name of the original incorporators, the names of the corporate officers (who are not necessarily the corporate stockholders) and an agent for service of process for the corporation. This information is available from the Secretary of State upon written request. (Secretary of State, Business Programs Division). The Secretary of State does not ordinarily have a listing of the names of initial stockholders or current stockholders, and that information is generally not available in any public record.

**Information available from County Clerks about
partnerships and sole proprietorships
(Part I, questions 1a-1d,2-4)**

Every business, including a partnership, that operates under a “fictitious name” (for example, “Ajax Sheet Metal Contractors” or “Smith Brothers Electrical Contractors”) is required to file with the County Clerk in the county in which its home office is located a “Fictitious Business Name” statement. This statement will indicate the owner of the business, if the business is a sole proprietorship, and the names of partners, if the business is a partnership. The information is available to the public from the County Clerk upon request. A written request may be necessary.

**Information about bankruptcy proceedings
(Part II, questions 7 and 8)**

Bankruptcy petitions, which include the names of the person or business that is seeking protection from the Bankruptcy Court, are available for public inspection at the office of the Clerk of each Bankruptcy Court (which are federal courts). In California, Bankruptcy Courts are located in Sacramento, Modesto, Fresno, San Francisco, Oakland, San Jose, Los Angeles, Santa Ana, Riverside, and San Diego. Most documents filed in court in bankruptcy proceedings are available for public inspection, at the Bankruptcy Court clerk's office. Some information on bankruptcy filings may also be available from commercial enterprises that collect and sell information from public records). In addition some information about bankruptcy cases filed August 1990 and later is available on-line through the "PACER" (Public Access to Court Electronic Records) system. To obtain information from PACER, you must register with the system, and pay a fee for the materials obtained.

**Information about civil suits and arbitration cases
(Part II, questions 14, 17 and 18)**

Each court keeps records of every civil suit filed in that court, and of the judgments that are issued after trials. However, the exact terms of pre-trial settlements are generally not recorded in court files. Documents related to disputes submitted to arbitration are generally not available for public inspection. Public agencies, however, are required to disclose the terms of such settlements, when documents are requested under the California Public Records Act.

**Information about criminal convictions
(Part I, question 9, and Part II, questions 21, 22, and 23)**

Criminal convictions are a matter of public record. Each courthouse (in both the federal and state court systems) has an index of its own criminal records. In addition, a few data collection businesses have collected criminal conviction information from public records throughout the state, and the collected information about particular individuals or businesses is available for sale from these private businesses.

**Information about Federal court civil and criminal cases
(Part I, question 9)**

Information about federal criminal cases (filed August 1991 and later) and civil cases (filed August 1990 and later) is available on-line through the "PACER" (Public Access to Court Electronic Records) system. To obtain information from PACER, you must register with the system, and pay a fee for the materials obtained.

**Information about citations issued for violation of
industrial safety and health laws**
(Part II, questions 28 and 29)

Information about citations issued by both the federal Occupational Safety and Health Administration and the California Division of Occupational Safety and Health (Cal OSHA) are available on a web-site maintained by federal OSHA, <http://www.osha.gov>.

Information about prevailing wage law violations
(Part II, question 34)

Information about recent prevailing wage law violations is available from the Division of Labor Standards Enforcement.

**Citations from either Air Quality or Water Quality Board
for violations of regulations**
(Part II, question 30)

Information about citations issued by the California Air Resources Board is available from that agency under the Public Records Act. In addition, Regional Air Quality Management Districts and Regional Water Quality Control Boards throughout the state may issue citations for violation of air quality or water quality standards. Consult the appropriate board in your area for information about how to gather appropriate information.

**Information about state-approved apprenticeship plans
and violations of state apprenticeship laws**
(Part II, questions 36-38)

Information about violations of state apprenticeship laws can be obtained from the Division of Apprenticeship Standards.

A LIST OF THE SCORABLE QUESTIONS AND THE SCORING INSTRUCTIONS

Note: Not all questions in the questionnaire are scorable; some questions simply ask for information about the contractor firm’s structure, officers and history. This document includes only those questions that are “scorable.” The question numbers in this document are the numbers used in the questionnaire. Thus, the questions included here begin with question number 6, and there are a few breaks in the numerical sequence.

The Scores Needed for Prequalification

To prequalify, a contractor would be required to have a passing grade within each of the three large categories referred to above.

For Section I, “History of the business and organizational performance,” DIR recommends use of a passing score of **57** on this portion of the questionnaire (of a maximum score of 76 on this portion of the questionnaire).

For Section II, Compliance with occupational safety and health laws, workers’ compensation and other labor legislation DIR recommends use of a passing score of **38** on this portion of the questionnaire (of a maximum score of 53 points on this portion of the questionnaire).

DIR makes no recommendation about how to score a contractor’s answers about recently completed past projects. Because of the wide range of projects that a public agency may be planning, and the similarly wide range in the skills, abilities, and experience that a public agency will consider most important for a pending project, it is impossible to propose a useful model scoring system to apply to the answers given about a contractor’s completed projects. See, also, note, below, re past projects.

A LIST OF THE SCORABLE QUESTIONS AND THE SCORING INSTRUCTIONS

The scorable questions arise in three different areas:

- (I) History of the business and organizational performance;
- (II) Compliance with occupational safety and health laws, workers' compensation and other labor legislation; and
- (III) Completion of recent projects and quality of performance.

* * * * *

⁶ If you wish, you may, using the same format, also provide information about other projects that you have completed that are similar to the project(s) for which you expect to bid.

NOTE: Scoring of previous projects completed:

For pre-qualification for a single project that may require specific skills and capabilities, such as MEP subcontractors, you may (but do not necessarily have to) choose to score contractors for the number of similar projects completed, and the degree of similarity between past projects and the planned project. DIR has not suggested any scoring for this aspect of the pre-qualification process, because of the numerous possible variations in both the type of project to be built and the points of similarity between the pending project and past projects that may be significant to the public agency. Alternatively, you may only want to ask the generic question about past projects to give an overall impression of fitness, without need to delve into specific types of projects, particularly for MEP subcontractors whose work will be within their license classifications in any case.
